Feature Information
Seismic - Leigh Creek, SA

Site Details Show Raw Data

Description	Vault and pier style installation
Site URL	http://ds.iris.edu/mda/AU/LCRK
Operating Authority	Geoscience Australia
Operating Authority URL	http://www.ga.gov.au/scientific-topics/hazards/earthquake/capabilities/monitoring#heading-3
Site Data Licence Type	Open Creative Commons
Site Status	Active
Spatial Reference System	http://www.opengis.net/def/crs/EPSG/0/4326
Latitude	-30.45
Longitude	138.22
Elevation	
Point Date	None

Site Observation Capabilities

Observation Method	In-Situ land-based platforms
Observed Property	Solid Earth Tectonics
Procedure	http://www.ga.gov.au/scientific-topics/hazards/earthquake/capabilities/monitoring#heading-1
Data Availability	Available Web Data Services
Sampling Regime	Less Than One Second
First Observation Date	2013-06-16
Final Observation Date	None

Give feedback

100 km
